

Bowman Photo Cards

[Pete Matthews Jr](https://3nt.xyz) – <https://3nt.xyz> – © February 2, 2021

Frank Augustus Bowman married Mary Frances 'Sis' Fowler on February 13, 1877, bringing him into our family. He was the family's professional photographer for almost two decades. For this article, I have re-scanned the front and back of all the photo cards I could lay hands on, from Bowman and other photographers, that have come down to us through the years.

Bowman worked from three addresses on Chapel Street in New Haven CT, and he changed his materials over the years. Researching city directories, we found:

Address	Years Listed	Potential Active Years
410 Chapel St	1876 – 1881	1875 – 1881+
480 Chapel St	1882 – 1883	1881 – 1883+
1062 & 1064 Chapel St	1884 – 1893	1883 – 1893+
1062 Chapel St	None	1883 – 1884

Obviously, data must be gathered for a city directory over a period of time before it is printed, which can introduce a lag. The modern style of periodical publishing is to make the publication available no later than the first date it covers, for example, January 1 for an annual directory. This may not have been the case over hundred years ago.

My sister, Andrea, extracted most of the data from directories via Ancestry.com. Because Ancestry did not have an 1876 directory, I went online myself and found one published by Benham on June 1, 1876 (a key year). A quick search of adjoining years did not disclose another Benham directory. I do not know whether this late publication was unusual or normal.

Let's assume that the information in the directories was correct when it was gathered, and that the directory for a given year was printed in the first half of the named year. Probably only actual, current addresses would be collected, but anticipated changes could have been accepted under some circumstances. A given directory entry (or lack thereof) could well apply to the end of the preceding year. It could possibly apply into the next year. For example, Bowman might have set up shop in February, 1876 – or almost any time in 1875 after he missed that directory.

Dating Bowman Photos

Frank Bowman was a fine photographer who grew a solid business. Unfortunately, he lost both it and his marriage, reportedly to alcoholism – but the [Panic of 1893](#) may have been a major factor. His addresses are listed by year in a table at the end of this article. Information from this table, summarized above, can be used to estimate the dates of Bowman's work.

We have Bowman *albumen print* photo cards in these sizes:

22 cartes de visite (CDV), generally 2.5 x 4 inches, and

57 cabinet cards (CC), generally 4.25 x 6.5 inches, one of which is 8.25 inches tall.

If you want to know more about these terms, I recommend

<https://familyhistorydaily.com/expert-help/19th-century-photo-types-a-breakdown-to-help-you-date-old-family-pictures/>.

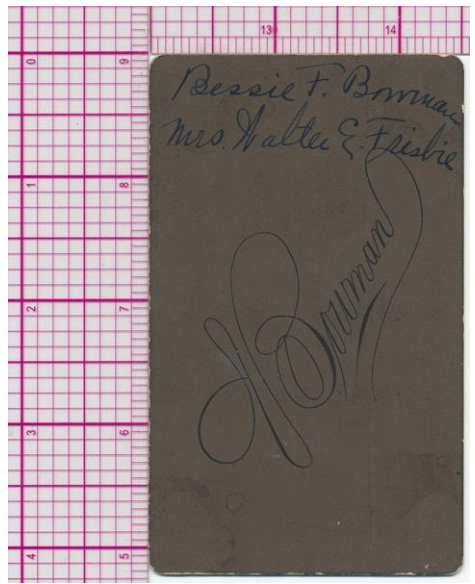

While I scanned all the cards at 400 dpi, for this article, I am using proof quality images with a maximum resolution of 800x600 pixels. This will help to keep this file smaller, while providing sufficient resolution for our purposes.

It turns out there were quite a few duplicates, some of which I have included. I have assembled a page for each of 69 cards (21 CDVs and 48 CCs). The CDVs have a variety of attributes, but most of the CCs from Bowman have white cards, printed front & back, rounded corners, and square edges without markings. We have CCs from other photographers, not included in this article, that differ on all these attributes.

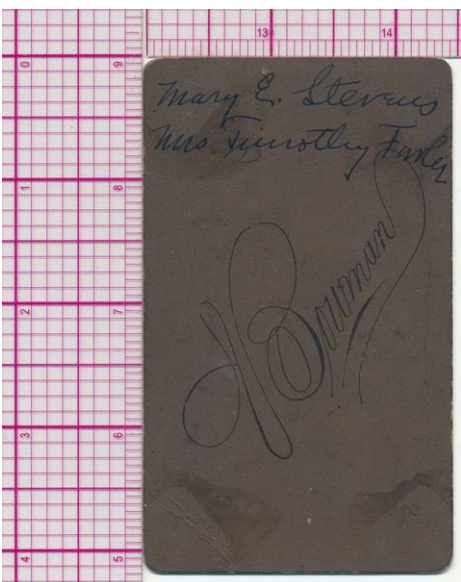

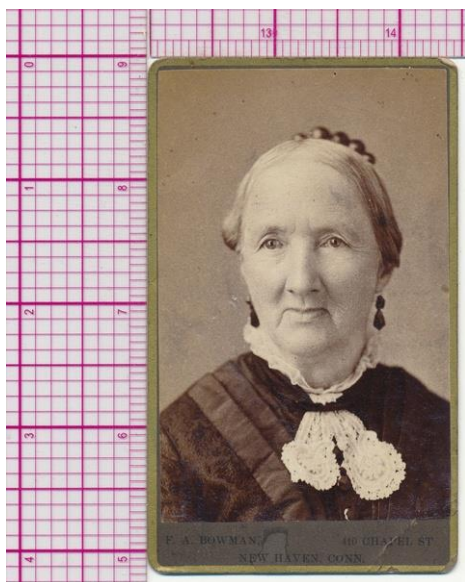

CDV #020 has only 1062 Chapel Street on the card, which could have been prior to upsizing, after downsizing, or a printing error. Since the subject died in 1887, I put that date as late 1893 to early 1894.

One of the duplicate images was printed by Bowman at different times: #113 (at 410 Chapel) and #115 (at 480 Chapel) of Katie Eliza (Fowler) Johnson. If we had only the second card, from the later address, we might have falsely concluded that the picture was taken later than it actually was.

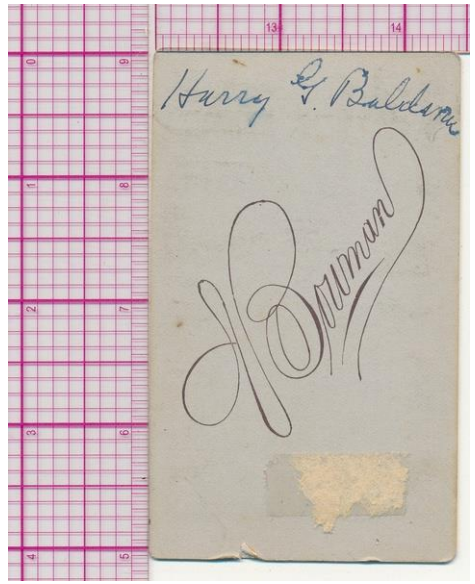

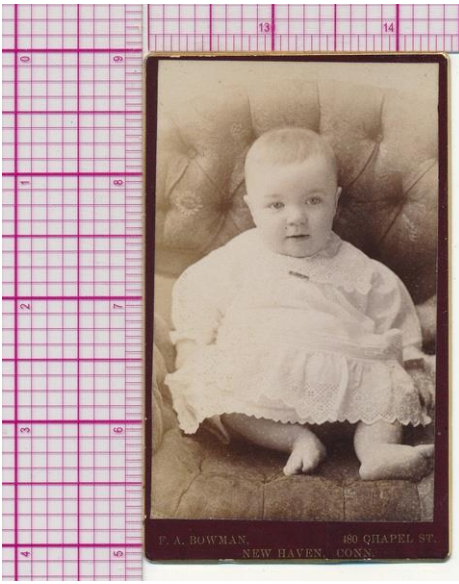

A card from an early address demonstrates that the image was taken no later than that period – unless Bowman used old stock, which it appears he did on specialty card #101 or #004. A card from a later period is an indication, but not proof, that the image may have been taken later.

Subject	Timothy Fowler III 1814-1888
Birthday	17 Sep
Other	m. (1840) Mary Eliza Stevens

This CC was cut down to insert into a photo album. This is the only image we have of Timothy III; we have other copies, including a picture of a Bowman photocard (1062 & 1064 Chapel).

See CDV image 002, of Mary Eliza, wife of Timothy III (410 Chapel); we have a corresponding photo of a CC (1062 & 1064 Chapel). It is highly likely that both pictures were taken at the same time – roughly 1880 – and reprinted as needed.
